Mais elle avait encore du fil.

Je le gave toujours de vieux jouets avant de me coucher. Comme ça, je peux dormir tranquille.

Alors il s'en fit un bouton et s'en servit pour attacher ses bretelles.

La vendeuse m'a écrasé 100 fois le gros orteil pour vérifier la taille de mon pied.

Il s'approche lentement...lentement...sans faire de bruit….et lorsqu'il est suffisamment près...GRRR!!! il bondit toutes griffes dehors pour l'effrayer.
